About Us:

Chemtron Science Laboratories Private Limited is India's leading Calibration gas manufacturer and exporter of NPL and NIST traceable gas standards as well as gas handling equipment's. We are divided into four divisions: Gases, Engineering, Post-Harvest Technology, and Electronics. Our calibration gases are used in various industries, such as automotive, chemical manufacturing, environmental protection, food, and oil and gas. Our Engineering division focuses on manufacturing cylinder pressure regulators and sampling systems. The Electronics division manufactures specialized products such as gas chromatographs, gas analyzers, and fruit ripening systems and solutions, controlled atmosphere chamber management systems, and other customized solutions in post-harvest technology. We are the industry leaders in ethylene-based fruit ripening solutions, with more than 15,000 operational installations across India.
